

FABRIC:

Most of our fabrics originate in Canada, Germany, and the USA. In regards to scotchguarding and other fabric treatments, please be advised that we cannot be held responsible as Mills do not guarantee any fabrics treated with After Market Protectants. All fabrics are subject to variation in dye lot and colour match, therefore samples are not guaranteed.

CLEANING CODES:

W – Water-based cleaning agents or foam may be used for cleaning.

S – Only mild pure water-free dry cleaning solvents may be used for cleaning this fabric.

For Connaisseur Super Suede and Leather, please refer to the attached instructions.

C.O.M.:

Items to be covered in Customer's Own Material are priced on our C.O.M. price list. C.O.M. yardages, as indicated in our price lists, are based on plain 54" wide fabric applied railroaded. We reserve the right to use our best judgement in determining if fabric is to be cut railroaded or not, unless cutting instructions are clearly stated on the order. If the C.O.M. fabric has a large repeat, please contact us to determine the surplus of fabric required.

All fabric should be sent prepaid to our address with P.O. number, Tag, and any special instructions clearly indicated.

Shipping time of the order will be based on the receipt of C.O.M. fabric rather than the actual date of the order.
